Clubin is distinguished by rounded form and design which refers to the pop-art style. It is a perfect suggestion for everyone who exceeds usual arrangement schemes. The intensive colours of the products distinguish every office space. The interesting sewing of the upholstery enable connecting different colours of the upholstery within one chair. Especially attractive are contrasting combinations of light and dark tones. The colour scheme can be chosen from a wide offer of upholstery fabrics. As much as 5 product enter into the composition of Clubin family and they differ one from another in the kind of applied base. There are swivel chairs on castors or feet as well as conference chairs. As a completion of the offer available are also round tables of 2 sizes. The developed product range enables creating of a coherent and effectively arranged office space.
