

DIRECTIESTOEL LIGHT

Light is a part of Luxy history. It has been conceived from an idea, which has become afterwards a patent, to fix the supporting structure to the upholstery through a single pipe without any screws. These are the elements that make the difference. Design is timeless and "light".

DIRECTIESTOEL LIGHT

Tailoring knowledge

The vertical and horizontal knitting enhances the mastery, precision and tailoring experience that are the attributes of Luxy.

DIRECTIESTOEL LIGHT

The workmanship of leather and fabrics

Light's upholstery is characterized by different types of tailoring processes with fabrics and "exclusive Luxy leather".

In the picture we could appreciate the high upholstered version with the vertical and horizontal knitting and ribbed version.

DIRECTIESTOEL LIGHT

Detail of the backrest handle completely integrated in the shell.

Detail of the armrest and of the fixing device.

Armrest in the fully upholstered version.

Armrest with partial upholstery

How the Light upholstery could easily be removed.

DIRECTIESTOEL LIGHT

The ability of designing useful or nice products and to find a way to solve all issues is not restricted to those people who have special talents, but it is a prerogative that all those people with an average intelligence have.

DIRECTIESTOEL LIGHT

The mesh version of the Light interprets at its best its own name, lightness and harmony in the design. The mesh facilitates the transpiration and gives the maximum ergonomics comfort.

DIRECTIESTOEL LIGHT

Details:

Each Light is marked with our brand and under the seat there is the batch number together with the production date. In the foreground a detail of the aluminum armrest which is treated twice with chroming process in order to keep its brightness forever and avoid the aluminum oxidation.

WACHTKAMERBANK LIGHT

Elegance and harmony
