More space to work.

Goal-Air. Likeable. Fresh. Versatile. Economic. This office chair is the very young, very ergonomic solution for the new generation of office swivel chairs: refreshing with its design options and colours, transparent in its design in each working area. Discreet, but with a fresh breeze, it is positioned for both the office sector and the home workspace. Transparency is a key word for corporate cultures: Goal-Air comes in versatile 3 mesh colours, black, anthracite and orange. As a result of its slim, athletic design, it invites you to be productive and also supports you effectively. The seat upholstery can be individually designed: discreet, sovereign, colourful or matching the corporate design. Goal-Air creates a space for athletic thinkers and young, advancing employees who like to make a difference, and more.

Creative and corporate. Its price-performance ratio is more than agreeable and creates space for further acquisitions in the office. Therefore, it appeals to a wide variety of people in a wide variety of professions.

Goal-Air: More space for ideas.
Goal-Air comes into the office with
fresh and invigorating colours.
It is no unpleasant aspect that there
is also more room for other things
left by Goal-Air as a result of its out-
standing price-performance ratio.

Intuitive control lever to adjust to your body weight, large spectrum from 45 kg -130 kg.

Beautifully designed and rolling backrest, workmanship with a loving attention to detail.

The seat depth adjustment makes it possible to individually adapt the chair to the length of your thighs.

The headrest can be adjusted in height, depth and incline.

The next position is the best

From the seating specialists

Fact: from an anatomical point of view ergonomics means movement because movement is a critical part of office health. It is a law of nature that effective work processes are one of the most important sources of value-added in the company. Back problems are the greatest causes of absenteeism. A good chair will not heal your back but it is good preven-

tive medicine and eases the pain for those who already suffer. What does an Interstuhl chair do? The patient therapist offers support in each posture. It generates a feeling of well-being in all positions and brings measurable relief.

Naturally, the courage to follow our philosophy of dynamic sitting has meant a break with all the old rules: majestic, immaculate and bolt upright vs. the new

philosophy of doing it with gusto, reclining, lounging, looking out the window, concentrating.

“You can sit however you want. Just sit on the right chair.” Each new product development with leading research institutes reconfirms this and it is substantiated by scientific input. The result: Interstuhl chairs accommodate every posture so ergonomically that maximum support is ensured.

- | | | |
|---|--|---|
| <p>1 Synchronous mechanism</p> | | <p>The synchronous movement of the seat and backrest provides optimum support for the back in every position; the push effect is eliminated.</p> |
| <p>2 Mechanical sprung column</p> | | <p>This ensures that the spine, which is very sensitive to vertical jolts, is not subjected to excessive loads when sitting down, even at the lowest seat height.</p> |
| <p>3 Weight adjustment</p> | | <p>The individually adjustable counter-pressure of the backrest permits correct sitting for both light and heavy users.</p> |
| <p>4 Back height adjustment</p> | | <p>The support range for the lumbar spine can be ideally adjusted to the height of the user.</p> |
| <p>5 Seat depth adjustment</p> | | <p>Regulates the distance between the backrest and front edge of the seat, thus providing optimum support for the upper thighs; even for taller users.</p> |
| <p>6 Adjustable seat inclination</p> | | <p>Multiple adjustment of the seat in a forwards direction stops the pelvis from tilting back. This relieves the spine and avoids a poor posture.</p> |
| <p>7 Adjustable lumbar support</p> | | <p>The horizontally adjustable lumbar support adapts to the individual curve of the lumbar spine; this reduces the muscle strain.</p> |
| <p>8 Adjustable armrests</p> | | <p>Height adjustment to take the strain off the neck muscles. Width adjustment and pivoting for optimum support angle, depth adjustment for optimum distance to the desk.</p> |
| <p>9 Headrest</p> | | <p>The neck and shoulder muscles are relieved by the headrest when you lean back.</p> |
